

Important Safety Instructions

- The power supply cord serves as a power disconnect device for pluggable equipment. The socket outlet shall be installed near the equipment and shall be easily accessible.
- Use only the proper type of power supply cord set for this unit.
- This product should be operated with a 3-wire grounding-type plug, a plug having a third (grounding) pin. This plug will only fit into a grounding-type power outlet. This is a safety feature.
- This unit is to be used with a power adapter (if it uses an external power supply), which needs to be equivalent to the one provided.
